FOR GOVERNOR,

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

News Items.

THE payment of the May interest on the gold-bearing coupons known as the Five-twenties will not be anticipated, but will paid on the first of May, the period at which it falls due. $20,000,000 is about the amount to be paid.

THE Internal Revenue Bill was reported on Wednesday by Mr. Morrill. Its features will be found elsewhere. On tobacco, which will be the subject of a separate report, the Committee decided to reduce the tax on smoking from thirty-five to twenty-five cents per pound, and on smoking made exclusively from stems, from fifteen to five cents per pound. The Tax Bill was made the special order for Thursday of next week.

A BILL is before the Tennessee Senate to tender to the Government the mansion house at the Jackson Hermitage, and two hundred acres of land, on condition that a military academy or some public institution be established on it.

THE citizens of South Danvers, Mass., have initiated measures for welcoming home George Peabody, who is a native of the town. A committee was chosen to meet Mr. Peabody on his arrival at New York, and another committee of twenty-five was selected to complete and arrange the home reception programme.

THE last dates from Guadalope state that the cholera is disappearing. The official statistics published by the Government show a mortality from this disease of 10,806 out of a population of 149,107.

THE United States Senate was the theatre of intense interest again on Wednesday, the Colorado bill being further discussed and put upon passage. The vote stood 19 to 13, one more majority than would have been obtained for it yesterday, although Senator Dixon came out to-day and paired his vote.

DR. SANFORD B. HUNT, long connected with the press of Buffalo, has assumed the editorial chair of the Newark (N. J.) *Daily Advertiser*.

THE New York *Tribune* sharply criticises the action of the quarantine officers of that city for detaining the cholera ship seventeen hours at Staten Island, and allowing forty-four hours to elapse before the sick could be removed to the hospital ship, and then transferring them in such a rude and inhuman manner that many died in removal.

WELLS, FARGO & Co. have sued the shippers of the nitro-glycerine, the explosion of which caused such destruction of life and property at San Francisco a fortnight since. They lay their damages at $100,000. The parties sued have been examined and held to bail in a sum equal to the damages claimed.

Changes in the Internal Revenue System—Report of Committee.

The present condition of public finances is such as to warrant, in the opinion of the committee, a reduction of the burden of internal taxation now borne by the country to the extent of about $50,000,000. The committee, therefore, after mature deliberation, have agreed to embody in the bill they will recommend the following changes of rates and exemptions. A large part of the loss of income resulting to the government from these modifications will be made up by an increase of the duties on certain sources of revenue hereafter mentioned:

CHANGES IN THE RATES OF TAXATION.

The tax on gross receipts of express companies increased from 3 to 5 per cent.

The tax on candles reduced to 3 per cent.

On clothing of all kinds reduced, except that of woven and felting material, to 1 per cent.

On boots and shoes from 6 to 3 per cent.

On cotton the duty is increased from 2 to 5 cents per pound.

On ground coffee and preparations of the same, a stamp duty of 1 cent per pound will be substituted for the present tax.

On pickles, preserved fruits, vegetables, meats, fish, &c., a stamp duty of 2 cents on each quart can will take the place of the present tax.

On general manufactures the tax is reduced from 6 to 5 per cent.

On salt the tax will hereafter be 3 cents per 100 pounds.

On incomes, instead of the present tax, there will hereafter be a uniform rate of 5 per cent. on all over $1,000, not deducting rents.

On brokers' sales of merchandise, produce or other goods, a tax is proposed of one-twentieth of one per cent, instead of the present tax of one eighth of one per cent.

On brokers' sales and contracts for sales of stocks and bonds on par value thereof, the tax proposed is one-hundredth of one per cent., instead of the present tax of one-twentieth of one per cent.

On brokers' sales or contracts for the sale of gold and silver bullion and coin, the tax proposed is one-hundredth and one per cent., instead of the present tax of one one-tenth of one per cent.

THE FREE LIST.

In addition to the above recommendations of a reduction of taxation, it is understood that the committee have agreed to advise that the entire tax on the following articles of production and raw materials be removed. In making up this free list the committee's aim has been to simplify our system of taxation by abolishing the several taxes on the same articles in different stages of production, and thus benefit the producer as well as the consumer:

Alum; animal charcoal or carbon; aniline and aniline colors; beeswax; barrels and casks, other than those for fluids; boxes of wood for packing purposes; bristles and curled hair; bleaching powders; blue vitrol; blooms, slabs and loops, books, maps, charts, and all printed matter and bookbinding; bi-chromate of potash; building stone of all kinds, including slate, marble, freestone and soapstone; bullion used in the manufacture of wares, watches and watchcases, and bullion prepared for platers and watchmakers; burr stones, mill stones and grindstones, rough or wrought; brass and copper, not more advanced than rolls or sheets, and yellow sheathing metal; brick, grebrick, draining tiles, earthen and stone water-pipes, coffins and burial cases; copperas; copper, lead and tin in ingots pigs or bars; spelter; flasks and patters used by founders; gold leaf and gold foil; hemp and jute prepared for textile and felting purposes; hulls of ships and other vessels; iron castings for bridges; keys, actions and strings for musical instruments; lamps and lanterns, the glass and metal of which prepaid tax; medical and mineral waters of all kinds sold in bottles and from fountains; mineral coal of all kinds; malleable iron castings, unfinished; metallic nickel and quicksilver; metallic zinc in ingots and sheets; masts, spars and ship and vessel blocks; monuments of all kinds not exceeding in value one hundred dollars; mouldings for looking-glasses and picture-frames; oakum; oxide of zinc; paper of all descriptions; productions of stereotypes, lithographers and engravers; paints and painters' colors, putty; petroleum (crude); paraffine oil, the product of the residum of distillation; and crude oil, the product of the first and single distillation of coal, shale, asphaltum, peat and other bituminous substances; paraffine; pig iron; plows, cultivators, harrows, straw and hay cutters; seed drills and planters; winnowing mills; hubs, spokes and felloes; wooden handles for agricultural, household and mechanical tools and implements; quinine, morphine, and other vegetable alkalies, and phosphorous, repairs of articles, of all kinds, railroad chairs; railroad, ship and boat spikes; axe polls; shoes for horses, mules and oxen, rivets, nuts, horse nails, washers and bolts; anvils, vices, iron chains and anchors, and all other articles made of wrought iron which has previously paid the tax or duty assessed thereon; roofing slate, slate and tiles; Roman and water cement and lime; starch; soap valued at not above three cents per pound; soda, saleratus, and bicarbonate of soda; sulphate of baryte; salts of tin; spindles and castings of all descriptions made for locks and machinery, upon which duties are to be assessed and paid; stoves, composed in part of cast iron, and in part of sheet iron, or of soapstone or freestone, with or without sheet iron or cast iron, provided the cast and sheet iron shall have paid the tax or duty previously assessed thereon; steel in ignots, bars, sheet or wire, and steel springs made exclusively for vehicles; sails, tents, awnings and bags, made by sewing or posting; tin cans for preserving meats, fish, shell fish, fruits, jams or jellies; tar and crude turpentine; verdigris, vinegar; vegetable, animal and fish oils of all descriptions, including red oil or olive, and white lead or "willow-ware, crates and baskets, yarn and wacy, for weaving purposes exclusively; gross receipts for freights, exclusive of railroad and transportation companies, as well as of all water craft, stage-coaches, wagons, &c; umbrellas and parasols; gloves, mittens, &c., all kinds of slaughtered animals; carriages not exceeding three hundred dollars in value; pianos and other musical instruments in family use; gold and silver plate kept for use; yachts.

FRANCE AND THE UNITED STATES.

Further Diplomatic Correspondence between the Two Countries on the Mexican Question.

Among the documents sent to the House relating to Mexican affairs, is one from Secretary Seward to M. Montholon, Feb. 12th, reviewing the friendly professions of Drouyn De Lhuys' former dispatch and his version of the mission of French soldiers in Mexico, and alleging that monarchy was the choice of the Mexican people and not the choice of the French Emperor.—France says Drouyn De Lhuys, went to Mexico to excise the right of war which is exercised by the United States, and no doubt in virtue of any purpose of intervention, concerning which she is agreed with the United States. France went there not to proselyte, but to obtain reparations and guarantees. Being there, she sustains the government, which is founded on the consent of the people. She now wishes to recall what remains of the army at the moment when she will be able to do so with safety to French citizens and due respect to herself. Mr. Seward replies that whatever the motives of the invasion, the means taken for subverting republican institutions are regarded by the United States as without authority, and contrary to the will of the people. The military demand of satisfaction seems to have become subordinate to a political revolution, for which France is responsible. The United States have seen no satisfactory evidence that the Mexican people have accepted the so-called empire, and the withdrawal of the French is deemed necessary to determine that question. It, therefore, recognizes the ancient republic, and can in no case consent to involve itself, directly or indirectly, with Prince Maximilian. His maintainance by European armies, with Imperial attributes against her will, is regarded with apprehension by all American republics.

Mr. Seward then recurs to his dispatch of Dec. 6th, 1865, urging the adjustment of the question endangering the harmony and friendship between the United States and France. The United States does not dictate in what way the claims shall be adjusted, but hopes France may find some way out consistent with her honor, and without injurious delay. To this Drouyn De l'Huys replies that much depends upon the Federal Government to facilitate the withdrawal, and also raises the question as to the compatibility of monarchical institutions on this Continent, witnessing Brazil, which Mr. Seward declines to discuss, but reasserts our desire for the withdrawal of French troops. Mr. Seward says where a nation has established republican and domestic institutions like our own, no foreign nation can rightfully interfere by force to subvert them.—He then reviewed the intestine wars of Mexico, and says we cannot approve the infliction of punishment upon them by strangers for their political errors. Nations are not authorized to correct each others' errors or impose discipline, being themselves judges of the occasion and the time. All sovereignty and international amity would be uncertain and fallacious. M. De l'Huys concludes by assuming that the character of Maximilian's Government cannot be contested on the grounds of employing foreign troops. He points to the beneficent sway of the new empire, and assures the United States that we are the most likely to profit by the restoration of tranquility, to which Mr. Seward replies that no such results could ever balance the injury they must suffer from the overthrow of their institutions.—Drouyn De l'Huys sums up that the United States acknowledge the right to make war in Mexico, while we admit also the principle of non-intervention. We have not crossed the ocean merely to show our power or inflict chastisement. We hope that the legitimate object of our expedition will soon be reached, and we are striving to make with the Emperor Maximilian arrangements, which, by satisfying our interests and our honor, will permit us to consider at an end the service of the army upon Mexican soil.

The Emperor has given an order to write in this sense to our Minister at Mexico. We fall back at that moment on the principle of the non-intervention, and from that moment accept it as the rule of our conduct. We expect from the Cabinet at Washington the assurance that the American people will themselves conform to the law which they invoke, by observing in regard to Mexico strict neutrality. Mr Seward proceeds to reply that the Emperor knows the form and character of our institutions. The nation can be bound only by treaties which have the concurrence of the President and two-thirds of the Senate. A formal treaty would be objectionable, as unnecessary, except as a disavowal of bad faith on our part to disarm suspicion in regard to a matter concerning which we have given no cause for questioning our loyalty or else such a treaty would be refused on the ground that the application for it by the Emperor of France was, unhappily, a suggestion of some sinister or unfriendly reservation or purpose on his part in withdrawing from Mexico. The diplomatic assurances given by the President in behalf of the nation, can, at best, be but the impressions of confident expectations on his part, that the personal administration, even changing in conformity to the national will, does not misunderstand the settled principles and policy of the people.

With this explanation, Mr. S. says, in the opinion of the President, France would not for a moment delay her proposed withdrawal of the military forces from Mexico, and he putting the principle of non-intervention into full and complete practice in regard to Mexico through any representation that the United States will prove unfaithful to the principles and policy in that respect, which, on their behalf it has been my duty to maintain in this lengthly correspondence. The practice of this government from its beginning, is a guarantee to all nations of the respect of the American people for the free sovereignty of the pepole in every other state. We received the instructions from Washington. We applied it strongly to our early intercourse with France. The same principle and practice has been uniformly inculcated by our statesmen, inter-vened by all our jurists, maintained by all our Congresses, and acquiesced in in without practical dissent on all occasions by the American people. It is in reality the chief fact of foreign intercourse in our history. Looking simply towards the point, to which our attention has been steadily confined, to the relief of the Mexican embarrassment without disturbing our relations with France we shall be gratified when the Emperor shall give to us definite information of the time when the French military operations may be expected to close.

I observe that the Emperor considers the people in every country the rightful source of authority. I wrote Mr. Dayton at the inception of the rebellion that the President neither expects nor desires the intervention, or even any favor from the Government of France. Whatever else he may consent to do, he will never involve, or ever admit, foreign interference in this or any other controversy in which this government may be engaged with any portion of the American people. At another time I wrote to him, "Nothing is wanting to that success except that foreign nations shall leave us—in our right to manage our own affairs in our own way as well as we can. We can only suffer by the intervention." Again, in declining the offer of French meditation, June 8, 1861, I wrote "this is an American nation, and our internal affairs must not be conducted with reference to its peculiar continental position, but by and through American agencies alone." On the 21st of June, 1862, Mr. Dayton was authorized to say. France has a right to make war with Mexico, and determine herself the cause. We have a right to insist that she shall not improve the war she makes to raise up an anti-Republican government, or to maintain such a one there.

THE Rev. P. V. Nasby, true to the sound Democratic principles of which he is so able an expositor, proposes the following code of regulations for the government of American citizens of African descent:

1. They must never leave the plantation onto which they are, when this act goes into effect, without a pass from the employer, under penalty uv being shot.

2. They shel hev the privilege uv sustain everybody of their own color, of they can give white bail for costs.

3. They shel hev the full privilege uv bein sued the same ez white folks.

4. They shel be competent ez witnesses in cases in which they are not interested, but their testimony is to go for nothin of it is opposed by the testimony uv a white man or another nigger.

5. No nigger shel be allowed to buy or lease real estate outside uv any incorporated city, town or village.

6. No nigger shel be allowed to buy or lease real estate within any incorporated city, town, or village, except as hereinafter provided for, to wit: He shel give notice uv his desire by publication for six consecutive weeks in some newspaper uv general circulation in aid village, for which publication he shall pay invariably in advance. He shel then give bonds in such sums ez the Mayor shel decide, that he nor any uv his angestors, or descendants, or relations, will ever become public charges, and will always behave themselves with due humility, the bondsmen to be white men and freeholders. Then the Mayor shel cause an election to be proclaimed, and if the free white citizens shel vote "yea" unanimously, he shel be allowed to buy or lease real estate. If there is a dissenting voice, then he shel be put onto the chain gang for six months, for his impudence in makin sich a request.

7. Their wages shel be sich ez they and the employers shall mutually agree, but first the nigger may not become luxurious and effeminate, which two things is vices which goes to sap the simplicity and strength uv a people, the sum shel never exceed $5 per month, but not less than enuff in all cases to buy one suit uv clothes per annum, which the employer shel purchase himself.

8 The master shel have the privilege uv addin to this code sich other rules and regulations for their proper government ez may strike him ez being good for em from time to time.

These are judicious rules, and if they can be adopted we are confident that the nefarious spirit of radical fanaticism will be crushed, and the rights of eleven States, which have always exceeded all the others in devotion to the Constitution, will be safe forever.

It is well known that the writings of the Rev. Mr. Nasby were much esteemed by the late President Lincoln, who was often wont to read them aloud to his more intimate friends for their entertainment and instruction. As President Johnson is merely bent on carrying out the policy of his lamented predecessor, we may fairly conclude that he, too, frequently consults the pages of this statesmanlike and Democratic philosopher; but as he may not have noticed this draft of a freedmen's code, we beg respectfully to invite the President's attention to its wise and comprehensive provisions. We think he find them all that any Southern patriot or any Democratic Moses could desire.—*Chicago Republican.*

SLIPPERY ROCK OIL REGIONS.

Mr. J. W. FRY, of West Greenville, Mercer county, Pa., the Agent of the Newton Farm, 10 miles from Newcastle, Lawrence county, Pa., in the heart of the oil region of Slippery Rock, is now stopping at the American Hotel, where he will remain during the present week. The Newton Farm consists of 100 acres, and is located about one mile from the great flowing well, now yielding 100 barrels lubricating oil per day. Mr. Fry is prepared to let contracts for the immediate development of this territory to responsible parties. ap27d2t

Any person or persons desiring information will address G. A. Newton & Co., West Greenville, Mercer county, Pa., and will receive prompt attention.

DISSOLUTION.

The partnership heretofore existing under the firm name of DONNEGAN & JOHNSON is this day dissolved by mutual consent. Either partner may sign the firm name in settlement of accounts due, and persons holding claims against the firm may present them to either partner for liquidation.

THE NEW YORK CONGRESSIONAL DELEGATION AND RECONSTRUCTION.

THE TRIAL OF JEFFERSON DAVIS.

MESSRS. EVART, CLIFFORD AND RUOSSEAU RETAINED AS COUNSEL.

GEN. GRANT'S VISIT TO RICHMOND.

A FENIAN "MUSS" AT EASTPORT.

DESTRUCTIVE FIRE AT DETROIT.

FREIGHT AND PASSENGER DEPOTS DESTROYED.

SUFFERING IN ALABAMA.

NEW YORK, April 27.

The Times' special says the meeting and action of the New York Congressional Delegation last evening with reference to the question of reconstruction, has been the subject of much comment to-day, and has created considerable surprise among the extreme men, who counted on the majority of that delegation as sure to favor forced negro suffrage in any event.

The following is the substitute of the proposition, which was received with the greatest favor by the meeting:

First. A constitutional amendment, basing representation upon population, and providing that whenever any State denies suffrage to any class of citizens of the United States for any reason, except for participation in the rebellion, such disfranchised class, or any portion of them, shall be deducted from the basis of representation.

Second. A constitutional amendment prohibiting the payment of the rebel debt, and providing that there shall never be compensation for emancipated slaves.

Third. As a part of the plan of restoration, it is proposed that whenever these amendments shall be ratified by a sufficent number of States to make them a part of the Constitution, then each of the rebellious States shall be entitled to the admission of its representatives on their taking the required oath of office.

Fourth. The following classes of persons to be forever debarred from holding office under the United States Government: The President and Vice-President, heads of Departments, members of Congress and Judges of the Supreme Court of the Confederate States; their representatives at Foreign Courts; all persons who left official positions under the United States Government to aid in the rebellion, all who served in the rebel army above the rank of Colonel, or in the navy above the rank of Master, and all persons guilty of treating our prisoners contrary to the rules of war.

This proposition was not formally adopted, but it was agreed that it should be presented to the Reconstruction Committee as that which would be generally acceptable to the New York delegation.

The question of negro suffrage, either immediate or remote, was received with very little favor.

The question of the immediate admission of Tennessee was not discussed, but such members as expressed themselves at all were decidedly in favor of it. It is understood that three of the most prominent members of the Reconstruction Committee will urge this proposition, viz. Senator Harris and Representatives Conkling and Boutwell.

The Tribune's special says the statement is whispered about this evening that the Senate to-day in Executive Session discussed some other matters than military confirmations, which were passed upon without opposition; and if rumor is to be credited, the majority of the Senate very distinctly announced that no nomination should be confirmed when made to fill a place made vacant by the removal for opinion sake of any competent officer who supported the election of Andrew Johnson in the last Presidential canvass. The Senate is bound to sustain the President, and also his best friends and supporters.

Senator Morgan being on the Committee on Commerce when the case of Mr. Smythe came up for action, it was referred to Gov. Morgan as the Senator from New York. It is customary to report back cases after one week's delay, and a report of the case may be expected by the committee to day, but nothing was said by Senator Morgan, and as there is no meeting of the committee until next Thursday no action will be had upon the case. During the interview it is supposed that no objections of moment will be made to his confirmation.

Messrs. Evart, Clifford and Rousseau have been retained by the Government for the trial of Jeff Davis. They were here yesterday arranging the case, although the time and place of trial have not been definitely settled.

The Times special says the would-be Senators from Colorado were upon the floor of the House to-day urging the case of that Territory among the members, but the prospect is not as good as its friends could wish. Many Republicans express a determination to oppose it—some for the same reason that Mr. Sumner did; others believe it is certain to prove another veto, which will still further alienate the President and Congress; and still others for the very excellent reason that to give Colorado, with 25,000 inhabitants, the same representation in the Senate as the great State of New York is manifestly unjust, and unjustifiable on any reasonable grounds whatever.

Attorney General Speed's has gone West to recruit his health, which is somewhat impaired by close and unremitting application to business.

The determination of the time and place of trial of Jeff. Davis will not be made until Mr. Speed's return, in all probability, unless something occurs which is not now anticipated by the Administration.

The Secretary of the Treasury, believing the time has come when the Government should no longer be in the position of a borrower of money, to day ordered the Assistant United States Treasurer to discontinue the reception of deposits for temporary loans.

The Senate will take up the Universal Suffrage bill for the District of Columbia next week. So say several Republicans.

Among the nominees sent to the Senate this p. m., by the President were the following: Colonel B. H. Brewster, to be United States District Attorney for Kentucky; Charles W. Webster, Deputy Postmaster at Fort Plain, New York; R. L. Gregg, Receiver of Public Money, Carson City, Nevada; John A. Clark, Surveyor of Territory of New Mexico, and the following receivers of Land Offices, viz: Royal Buck, Nebraska City; Charles R. Dorsey, Brownsville, Nebraska, and William F. Swezy, Omaha, Nebraska.

The Herald's special says General Grant's visit to Richmond was marked with many pleasing incidents and gratifying results. People flocked to see him in large numbers, from curiosity, no doubt, but during his stay he was called upon respectfully by such persons as Robert Ould, ex-rebel Commissioner for exchange of prisoners, General Joseph Anderson, of the Tredegar Ironworks, Mayor Mayo, Generals Burkham, Henningsen, Lyons, Hill, Carter, Walter, Harrison, and many other influential citizens. The ladies also called on Mrs. Grant freely, and every one who called manifested becoming feelings and sentiments.

The railroad company placed a special car at his disposal. The Spottswood House assigned him a large suite of rooms. The Ballard House offered to do the same, and every one tried to contribute to his comfort and pleasure. He dined once with General Turner, temporarily commanding; visited Fort Harrison and other points of interest, and returned well pleased with his visit.

PORTLAND, April 27.

The steamboat New Brunswick arrived from Eastport this morning with two hundred Fenians. On leaving for Boston several who had gone ashore were left behind at the entrance of the harbor. The Fenians who were "a polling" for a fight mutinied—drew their pistols on the officers and obliged the boat to put back. The ring leaders were put ashore and sent on by rail. The boat proceeded at nine o'clock.

WASHINGTON, April 27.

There seems to be no doubt that Mrs. Jeff Davis has obtained permission to visit her husband.

DETROIT, April 27.

The passenger and freight depots of the Detroit and Milwaukee and Michigan Southern Railroad, and the ferry steamer Windsor were destroyed by fire last night.

BOSTON, April 27.

Charles Lane & Co. sold out their entire stock of wool, about 300,000 pounds, this forenoon. The auctioneer was J. B. Osgood. The attendance was large and the bidding spirited. The wool was sold at prices ranging from 15 to 59 1-2 cents per pound, in lots ranging from 5,000 to 20,000 pounds. The wool was mainly of first quality. Ohio fleece wool brought the highest price.

NEW YORK, April 27.

Dr. Bissel reports there have been no admission of cholera patients to the hospital ship since last report. There have been three more deaths.

NEW YORK, April 27.

Accounts from Trinidad to the 9th instant, brought by the British Brig Premier, state that sugar was coming in quite freely. Molasses will be late. All the vessels in port were taken up. Freight on sugar to New York 6 1-2 cents; molasses $6 to $6.50 under deck; $4 50 on deck per 110 gallons.

The Post's special says the bill prohibiting the landing of passengers from emigrant ships which arrive here overloaded is to be introduced in the House.

The Treasury Department is informed that smuggling on the Canadian frontier is practically at an end.

NEW YORK, April 27.

Montgomery, Alabama, papers just received contain accounts of suffering and destitution in various counties of the State. As many as three hundred women have been seen at one time around the courthouse on days when rations were expected, having walked from fifteen to twenty miles, and within forty miles of Montgomery.—There are 700 destitute families in actual want of food to sustain life.

The New York Board of Aldermen yesterday adopted a resolution directing the Committee on Markets to report on the best and most expeditious method of rebuilding Washington Market. The new structure to be of iron, one story in hight and built in sections.

Officers of the General Government have commenced the removal from the Battery Barracks of thousands of muskets stored there, which were taken a year ago from Lee's and other armies. The work will continue a week.

The Board of Health will enter upon the premises as soon as possible.

PORTSMOUTH, April 29.

Wm. G. Greer, Fenian organizer, a Captain in the late Eastport expedition, has arrived here from Portland on his way home. He says the expedition would have been a success had Gen. Killian been sustained. He considers O'Mahony a fraud on the public, and says that the only hope of success now is in supporting Roberts and Sweeney. He has told the council here to send no more money to Union Square.

NEW YORK, April 27.

The Commercial's special says Mr. Smythe's nomination to the Collectorship has been referred to Gov. Morgan, who has not yet reported to the Commerce Committee, which will not have a meeting till Thursday.

The delegation of New York is in Washington urging Secretary Seward to take action against crowding emigrant ships which endangers pestilence and death.

Large numbers of idle freedmen at Newbern and on the Roanoke Island have been notified that they cannot have rations after May 1st.

XXXIXth Congress—First Session.

SENATE—April 27.

The bill to establish telegraphic communication between the United States and Cuba was taken up on a question of concurring in certain House amendments, one of which limits the price of telegraphing to $3 50 for ten words, and another gives the Government the right to use the line at all times free of charge.

Mr. Conners hoped the Senate would not concur in the amendments. The price was altogether too high—$3.50 for ten words for a hundred miles!

Mr. Morrill said the right to amend the bill was inherent in it, and if the charge was found too high it could be reduced at some future time. It was only provided in the House amendments that the rate should not exceed $3.50 for ten words.

The Senate then, on motion, refused to concur in the House amendments, and called for a Committee of Conference.

Mr. Wilson offered a resolution to grant the use of the Senate Chamber on Thursday evening, May 30, to James E. Murdock to give readings in favor of a National Soldiers' and Sailors' Orphan Asylum.

Mr. Wilson asked for the immediate consideration of the resolution.

Mr. Riddle—I am in favor of the object in view, but it requires unanimous consent to consider the resolution. Does the Senator from Delaware object to its present consideration?

Mr. Riddle—I object.

The Chair—Objection being made the resolutions lies over.

The special order of the day being the bill for the relief of certain naval contractors, it was taken up.

The pending question was on the motion of Mr. Henderson to postpone the bill till the first Monday in December.

Messrs. Hendricks and Nye spoke in favor of the bill, and Messrs. Clarke and Riddle against it. The discussion occupied three hours.

On the motion to postpone the bill until December the roll was called, and the roll stood 11 yeas against 25 nays.

Mr. Henderson then moved to recommit the bill and amendment to the Committee on Naval Affairs.

Mr. Conners hoped it would be recommitted to the Committee on Claims.

Mr. Davis suggested that the Committee be instructed to report separately upon each case.

The Senate refused to recommit the bill by a vote of 13 yeas to 33 nays.

The bill was then passed.

It provides as follows: Section 1. That the Secretary of the Treasury be directed to pay out money in treasury notes as appropriated to the several parties according to the awards made in their favor by the Naval Board, organized under the resolution of the Senate, adopted March 9th, 1865, and reported to the Secretary of the Navy, provided, that the payment shall not in any case exceed 12 per cent upon the contract price, except in the case of the Comanche, in which case the award shall be paid in full.

Section 2 provides in the cases of Donald McKay, of Boston, and Miles Greenwood, of Cincinnati, whose contracts have been completed to the satisfaction of the department, and who were prevented from appearing before the Naval Board, shall be entitled to the same rate of compensation as is authorized to be paid to other parties building the same class of vessels and machinery, and such payment to be made to them out of any money in the treasury not appropriated under the supervision and direction of the Secretary of the Navy; provided the evidence submitted for his examination fully establishes the right of said parties to such amount of compensation.

Section 3. That the sums named shall be in full for all claims of said parties in said contracts.

Meeting of Creditors of the Petroleum Bank.

A meeting of the creditors of the Petroleum Bank will be held at the Board of Trade Room this SATURDAY EVENING, April 28th, at 7½ o'clock, to discuss the condition of affairs occasioned by its failure, and to adopt such measures as may seem expedient for the relief of depositors.

It is earnestly requestly that Mr. E. H. Chase, the President of the Bank, and Mr. John R. Madison, Cashier, be present on this occasion.

MANY CREDITORS.

Soldiers' Meeting To-Night.

The adjourned meeting of the Union soldiers residing in Titusville, will be held this evening at the Reading Room. It is hoped there will be a general attendance of those interested, as the committee previously appointed will submit a plan of organization. The organization of soldiers' societies is becoming quite general throughout the State, and we observe that a State Convention is to be held in Philadelphia on the 9th of May, to which all associations are invited to send three delegates.

Let there be a full representation of the rank and file at the Reading Room this evening.

Proposed Reduction of Internal Taxes.

We publish on our first page a list of reductions of the internal taxes, which the Committee of Ways and Means have reported in favor of.—The object is said to be to reduce the burden of internal taxes to the extent of fifty millions of dollars. The tax on incomes is to be a uniform rate of five per cent. on all incomes exceeding $1,000. On gross receipts of express companies it is to be five per cent. On cotton, five cents per pound. There is then a general exemption of raw material and implements used in farming, ship-building and manufactures. The free list includes seventy-five specifications, the general idea being, that articles not taxed shall not be subject to a repetition of taxes in different stages of production. We may instance bloom and pig iron, coal of all kinds, stone, oil, petroleum, plows and other imp'ements, and parts of the same, articles made of wrought iron which has paid duty, steel in bars or ingots, and steel springs for vehicles, yarn for weaving, pianos and plate for family use, sails and cordage for ships, paper and all printed matter, &c.

New Property Laws.

The Pennsylvania Legislature at its recent session made some material changes in the law in relation to property in this State, of which the legal profession are doubtless already aware, but of which the public generally should be duly informed.

The following is the enactment, in substance:

In all cases in equity in which a special injunction has been or shall be granted by any Court of Common Pleas or District Court, an appeal to the Supreme Court shall be allowed without affidavit or security, but such appeal shall not suspend the operation of such special injunction or the proceedings in the original suit.

Any person whose husband or wife is *non compos mentis*, and possessed of real estate, is empowered to sell, mortgage, lease for years, and convey upon ground rent the same or any part thereof, under the direction of the Court of Common Pleas of the proper county, whenever it shall appear that it is to the interest of the owner thereof to make such disposition of the property. It is provided also that such sale shall divest such premises from any estate or claim of dower, and any estate as tenants by the courtesy.

The powers and jurisdiction conferred upon justices of the peace by the landlord and tenant act of Dec. 15, 1863, are conferred upon the several aldermen in this Commonwealth, any of whom may act with the like effect as may be done by any justice of the peace by virtue of said act.

All judgments in foreign attachments heretofore liquidated in accordance with the law and practice as it was previous to May 8th, 1855, are declared valid and binding judgments, the same as if they had been liquidated according to the provisions of the act of said date.

The Judge of a Court before whom any writ of *habeas corpus* shall be returnable, is empowered to issue subpoenas and all other process necessary to compel the attendance of witnesses.

DYEING.—Our old acquaintance, D. Leary, proprietor of the Steam Fancy Dyeing House in Rochester, N. Y., sends us an advertisement for the benefit of the oil region. Mr. Leary's Dyeing House is the oldest and most extensive establishment of the kind in Western New York. The art of dyeing has been brought to such a state of perfection that flexible fibres may be impregnated with any color which may be desired, and in such a manner that it will remain permanent under every test or exposure to which it may be subjected. Wool, silk, cotton or linen, are thus changed from original colors to any given tint, (by a judicious combination,) communicated in such a manner as to improve the natural gloss, and render apparently new, fabrics that have become faded and rusty. Very few persons have an adequate conception of the amount of business thus performed. With Mr. Leary, every day of the week has its established color, from *Blue Monday* to *Black Friday*, which seem to be very appropriately distinguished. Mr. Leary's establishment is in every department as perfectly arranged as possible, and he is enabled to execute contracts, great and small, with expedition and to the satisfaction of all customers.

Goods may be sent by express and returned in good order and bills collected on delivery. Read the advertisement.

A Ramble on Church Run.

Our reporter visited Church Run yesterday and recorded his observations as follows. There are four wells sunk at the mouth of the Run, from 600 to 800 feet deep, and here no third sand rock was found. There are three other wells which were commenced, but abandoned before being sunk to a proper depth for tubing. A few hundred yards up is the mouth of Stillhouse Run, a tributary of Church Run, on which is located the property of the Thompson Oil Company of Erie. A well is being sunk here and has reached the depth of 350 feet, with an excellent show of oil in second sand rock.

Half a mile further up on Church Run is the Bloss and Warring well, down 730 feet. It at one time yielded a considerable quantity of oil, but was allowed to get out of repair, and is again being put in working order.

One third of a mile above is the property of Cadwallader & Co., of Titusville, where we found the first producing well, called "The Herald" well, in compliment to this journal. It is down 548 feet, 67 feet in third sand rock, and produces, when working, 35 barrels per day.—The first sand rock is blue, the second grey, and the third white. Immediately below is a well being sunk by C. J. Cheshire, called the "City" well. It is down 480 feet; through the second sand rock; good show of oil. On the same property three other derricks are up and operations commencing. Adjoining above is the Sloan track, lately bought by some Titusville parties. Here two wells are going down. Next above are three acres belonging to Cadwallader & Morse. Couch, Lester & Russell have commenced one well on this tract. Jesse Smith has one well down 430 feet, not reached second sand rock; and a third well is being put down by A. R. Williams, C. H. Ames, and Charles Selden. Present depth 380 feet.

Next above is three-fourths of an acre belonging to J. H. Bunting, L. H. Severance, W. H. Abbott, Albert E. Pierce and others. A well is to be put down here immediately, to be called the "Oil Shippers" well.

Adjoining above are sixteen acres, belonging to Isaac Weed, upon which is the W. H. Taylor well, down 530 feet and through third sand rock 68 feet, producing 25 barrels per day. Two others are being sunk here, one by Briggs and Severance, called the "Rhode Island," and the other by Beach and Adams.

Adjoining on the left, a little above, is the property of the American Oil Company of New York, seven acres, where a well is being commenced by Mr. Sutton.

Immediately above is a seventy-seven acre tract, owned by the Atlantic and Great Western Company of New York city, on which is the largest producing well on Church Run, called the "Eureka." Depth 578 feet, 65 feet in third sand rock, yielding 40 barrels per day.

G. M. Mowbray is sinking two wells on this property; one is 572 feet deep, with tools fast, and the other is down about 275 feet. The company are also putting down two wells; one is 400 and the other 200 feet deep.

Three-quarters of a mile above is the Fellon tract of nearly 100 acres, where six wells are being put down, the deepest of which has reached 250 feet.

Thus it may be seen that Church Run is being rapidly developed, and we may soon hope to hear of some large producing wells being struck here.

Proceedings in Common Council.

A regular meeting of the Common Council was held on Thursday evening, April 26th.

Present—Messrs. Ostrum, Custar, Goodwin, Coburn, Bunting, Fletcher and Bloss.

Absent—Mr. McCrum.

Minutes of preceding meeting approved as published.

Mr. Bunting presented a petition for sidewalk on South side of Spruce street, from Perry to Washington streets. Referred to Street Committee and subsequently approved.

Mr. Coburn presented a petition for grading and repairing Monroe street and laying sidewalks from Railroad to Main street. Also for a sewer in same street, from Pine street to the Mill Race. Referred to Street Committee.

A remonstrance was presented in relation to street improvement ordinance, and requesting that a plank road be adopted. Laid on the table.

A petition was presented for the re-organization of the Fire Department, and the appointment of D. S. Quimby as Chief Engineer; A. W. Coburn and W. S. Winsor, Assistants; F. W. Ames, Treasurer; R. D. Fletcher, Secretary. On motion referred to a special committee of three, consisting of Messrs. Bloss, Goodwin and McCrum.

A petition was presented from residents on Elm street, asking that a pool of stagnated water be abated and the hole filled up. Voted that the parties interested be permitted to do the work at their own expense.

The following bills were allowed and ordered paid:

Bill of John Moore, with interest for rent of lot for engine house.

Bill of Street Superintendent, for pay roll on streets, $250.

Bill of F. Bates, for insurance on engine-house, $80.

Bill of Mayor Angier for city seal, &c., $30.

Bill of B. S. McAllister, Esq., for enrollment of city charter and certified copy, $25.50.

A bill was presented by Chief Engineer Geib, to the amount of $672.85, for expenditures by the firemen on Engine No. 1, and furniture for engine house. Referred to Fire Committee.

Mr. Coburn reported proposals from Bloss Bros. & Cogswell for advertising ordinances in the HERALD, and posting the same as required by city charter, from April 1st, 1866, to April 1st, 1867, for the sum of $300. On motion the Printing Committee were authorized to execute contract upon the terms proposed.

Mr. Bloss moved that the City Clerk be requested to call upon B. S. Burgess and examine his criminal dockets, and recover the moneys in his hands belonging to the city of Titusville. Carried.

Mr. John P. Culver, City Engineer, presented to the Board two copies of his map of the city of Titusville, which on motion were accepted with a vote of thanks, and one copy directed to be placed in the Mayor's office.

Mr. Bloss moved that the Finance Committee be authorized to effect a loan of $1,000 or $2,000, the sum to be fixed in their own discretion, for meeting contingent expenses. Carried.

The City Clerk presented an ordinance granting the right of way to the Titusville & Pithole Pipe Company, for three pipes across streets and alleys, on the present line, so far as they should not interfere with any public improvements. Adopted.

Adjourned for one week.

CLARK EWING, Clerk pro tem.

Reply to Mr. McCray.

PLEASANTVILLE, April 27, 1866.

Editors Morning Herald:

Noticing in your issue of this morning an article under the heading "Small Business," I trust you will give this explanation as prominent a place in your columns.

The citizens of Pleasantville have for some time been greatly annoyed by persons riding upon the sidewalks, thereby not only destroying said walks, but seriously annoying pedestrians—especially ladies; and such persons when politely requested to "take themselves off" retorted with profanity and also abuse. The Town Council, in the exercise of their lawful functions, took it upon themselves to abate the nuisance, and ordered that any person convicted of the offence should forfeit and pay the sum of five dollars with costs, to the use of the borough.

A. J. McCray, upon *full proof of deliberately* violating said ordinance was fined five dollars and costs—the law not presuming "ignorance"—at least where not pleaded—as justification. The undersigned, making the usual complaint before Justice Connelly, in the discharge (as he considers) of his duty as a citizen, without malice and without compensation, does not feel entitled to censure. The city of Titusville, I believe, makes the penalty not more than *twenty dollars* for obstructing the sidewalks unlawfully. And we claim the right to protect ourselves from nuisances, even should an "ignorant" *East Hickory* man see fit to make himself such.

T. A. MORRISON.

Affairs at Enterprise.

From Our Own Correspondent.

ENTERPRISE, April 28, 1866.

The oil business in our section of country has for some considerable time past been very stagnant, speculators being shy at entering on new operations—the cause being that a number of wells have been put down and no profitable result obtained. In some instances the locations have not been judiciously selected. Too much faith has been put on the hazel twig and spirit medium business to be prolific of any good, not saying anything about the practical geologist, whose opinion is not much cared for, and under the new *regime* not needed. An alteration to this unhappy state of things is needed for the benefit of the practical community ardently required. That oil exists in the bowels of the earth is a fact known to all. To obtain it is another question, on which opinions are much divided. One operator will say he prefers locating in a ravine or gorge; another at the base of elevated land. Again, high table land is selected, and so on till derricks are seen without any regard to altitude or bluff, as in Pithole for instance. The wells that have been struck on the Morey farm, and adjoining on the Hyner farm, will show that oil exists in as large quantities, at an elevation, as at a declivity. The law of nature that governs this phenomenon, is undiscovered. Many ideas are and have been enunciated as to its formation and location, without, as yet, any solid result. I for one must stick to the sound old theory, that a ravine is better than a bluff, as in the declination of the land, the oil producing rocks will invariably dip with the surface and drain into the small basins that will be formed. Having closely examined Pine Creek and tributaries, am firmly of the opinion that good paying wells will be struck, if legitimate operations are carried out. Surface indications are numerous, and in some places oil is seen seeping out. This ocular demonstration will prove its presence undoubtedly in quantity; and also an evident fact that development is required at present. This section is, comparatively speaking, undeveloped. The wells that have been put down with such unavoidable results have damped the ardor of oil men, and till some big strike takes place business will be dull enough.

There is some talk of an eastern company who own a large tract of land here, developing in the ensuing summer, by putting down six wells, an enterprising idea and a step in the right direction deserving of success.

Referring to our actual business, the Rhode Island Petroleum Company's well No. 3, is down to the third sand, with a good show of oil, and is being tubed. The Burnett well—a crevice has been struck in the third sand at a depth of 500 feet—will tube at once. Having not seen the records of either well we cannot forward you. Atkinson well doing nothing. Cherry Creek Company's well is going deeper. It is the intention of this company to go at least 1,000 feet if oil is not struck before reaching that depth; Benedict wells doing *nil*; Go In & Win Company do; Reed Well pumping fifteen barrels daily; Van Nyce well, down 1,000 feet. This is well located.

The Enterprise House has changed proprietors Messrs. Carman & Booth retiring to York State. The new host, friend Samuels, accords a hearty welcome to all visiting his noted hotel.

Our old friend D. H. Mitchell, the banker, has been elected to the onerous position of Justice of the Peace, and from his experience as a strict business man, and integrity of character, we now have the right man in the right place.

The lumber business is brisk and some considerable rafting going on, orders being filled for Cincinnati.

A few days ago a gentleman lately connected with a Democratic paper in our county seat, went for a tour through the oil regions and amongst places of note visited Plumer and Pithole, and there lost or was robbed of legal tender to the tune of some $6,000. Bewailing his hard fate he started homeward a sadder if not a wiser man. Calling at our village on his way and putting up at the principal hotel, felt somewhat low-spirited, and thinking that the glass that cheers but does not inebriate, would not be applicable to his depressed condition, soared into the regions of Isabella, and to his utter consternation, on opening his wallet, found that some sixteen dollars more had been abstracted. Here was a horrible climax. It is needless to say that our friend was in a deplorable state of mind. No use in *indulging* in vain regrets; the possibles were gone beyond recall. Whilst in a state of said reflection of how to raise stamps to take him to his destination, a sudden, flash came thrilling through his mind that some Promothary bills were uncollected here; so in a well-to-do business like manner he energetically made the necessary collections and departed somewhat light-hearted but lighter in pocket. I remain yours truly, J. W. J.

Plank Roads—A Recommendation.

Editors Morning Herald:

It is well known that the directors or parties interested in the plank road from this city to Pithole labored under many disadvantages in building this road, both in not being able to obtain their plank and also the season being so unpropitious. As it is now, a single track is laid down, and is amply sufficient for the travel, but the company have sufficient plank on hand to complete the road. And I now wish to place before them a plan whereby they can to a certainty secure a dividend on, and in time the amount of money they have invested. And it is simply to give us a single track from this city to Pioneer Run, Bennehoff and Stevenson farm—or if occasion require, to any developed territory on the creek this side of Petroleum Centre. As it is now, we are building up small towns to our disadvantage, from the fact that oil shippers are compelled to ship through parties doing business down the creek, and they (the shippers) contend that if these parties can make money by the operation, why should they not make, or gather save it themselves, and also benefit the city.

Again, a large amount of oil is constantly finding its way to Pittsburgh, which with good facilities can find a market or an outlet here.

Any oil shipper will say that the cost of cooperage or empties sent down the creek by railroad is greatly in excess of that by direct handling as received from the well, and that the expense otherwise will be in the long run much less. I therefore suggest to the Titusville and Pithole Plank Road Company that they take immediate action in this matter, and give us that which we have so long needed, a plank road down the creek. "TITUSVILLE."

Since writing the above we notice that Dean & Co., Tank Line Railroad, have extended their track to Funkville. We understand, also, that it is the intention of the Oil Creek Railroad to push their line through to the same point. We hope this is true, for if done it will have a tendency to bring about a beneficial competition. T.

BURGLARY.—The residence of G. W. Barr was forcibly entered on Thursday evening, between eight and nine o'clock, and property stolen to the amount of fifty dollars, during the temporary absence of the present housekeeper, Mrs. Pond, who was out for a few moments, having carefully secured the doors previously. The Chief of Police with officer Golding, found the general confusion which a rummaging for valuables would occasion, but no trace of the perpetrator of the outrage. The publicity of the spot and the clear light of the moon seemed to render a robbery a matter of impossibility. A reward of fifty dollars is offered for evidence which will lead to the conviction of the scoundrel.

GRAND LOTTERY.—A novel method of disposing of property at Pithole is advertised in the *Record*. A prize concert is arranged to come off, at which $70,000 in prizes are to be awarded. The first prize consists of a hotel valued at $60,000; the second of a marriageable damsel with $5,000 in greenbacks (girl thrown in); and the remaining $5,000 in billiard tables and bank notes. Altogether an elephantine schedule.

BELTON'S MUSEUM.—This exhibition on Spring street is attracting immense crowds of spectators. The curiosities are described in the advertisement. Since their last visit one of the attractions has disappeared. Miss Ellen Eckert, of Easton, Pennsylvania, died about one month ago at her own residence. She was only fifteen years of age and weighed 600 pounds.

WE would call attention to the advertisement of W. B. Todd & Co., who wish to purchase a large number of old and new engines, drilling tools, &c. Many companies and individuals may thus be able to realize something on a kind of property which they had almost or quite abandoned.

ALL parties who have any claims against the late Borough of Titusville, are requested to present them to the City Clerk on or before the first day of June.

FIRE ON THE STOREY FARM.—A new refinery on the Storey Farm took fire yesterday forenoon and was destroyed. We have no report of the loss.

A SPECIAL meeting of the Board of Trade will be held this afternoon at 2 1-2 o'clock. A general attendance is requested.

DROP in at E. S. Fowler & Co.'s, No. 2 Fletcher's block, if you are going away, and purchase your railroad tickets over any route, and avoid the trouble and danger of buying a ticket at the depot.

WILL find *Troches* useful in clearing the voice when taken before Singing or Speaking, and relieving the throat after an unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the *Troches* are universally pronounced better than other articles.

Obtain only "Brown's *Bronchial Troches*," and do not take any of the *Worthless Imitations* that may be offered.

Id everywhere in the United States, and Foreign Countries, at 25 cents per box. nov18cowlyr

A CARD TO INVALIDS.—A Clergyman while residing in South America as a missionary, discovered a safe and simple remedy for the cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Seminal Organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been already cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine, in a sealed envelope, to any one who needs it, *Free of Charge*.

Please inclose a post-paid envelope, addressed to yourself. Address,

JOSEPH T. INMAN,
STATION D, BOOK BOX, New York City.

SPECIAL NOTICES.

Travelers Attention!—Stages leave Miller Farm for Pithole City at 7 a. m., 12:30 p. m. and 7:30 p. m., on the arrival of the trains on the Oil Creek R. R., returning in time to bring passengers by the Express trains for Titusville and Corry. Fare only One Dollar. ap28 GEO. EARLL.

D. C. Clark is receiving nice Peachblow and Flake POTATOES almost every day, and can supply customers with any quantity, from a peck to a car-load

A Great Catawba Trophy—STEAMER "CHAUTAUQUA"—ALL HANDS ABOARD!—The steamer is now making her regular trips between Jamestown and Mayville, on the Chautauqua Lake. Will leave Jamestown on the arrival of the Corry Accommodation train on the A. & G. W. R. R., about 10 o'clock a. m., and connect with the 3 o'clock p. m. train on Lake Shore R. R. at Westfield; which arrives at Buffalo, 5 o'clock p. m., connecting with the New York Central R. R. Passengers going east will find this a pleasant route and make the same time as by all rail.

HILL & MURRY, Proprietors.

Through tickets to pass over this line can be bought at Titusville, Shaffer and at all important R. R. ticket offices as cheap as by all rail. ap17tf

Martha Washington Hair Restorer.

That which revives, reanimates and blesses—
'Tis not a *potion* that will soil your tresses,
'Tis not a dye that sometime will impair
The wavy lustre of your glossy hair,
Selected out from nature's grand creation—
A simple vegetable preparation,
Where nature and where chemistry combine
To make it what it is—almost divine,
A wonderous panacea, which in truth
Restores the fading lustre of your youth
And makes you feel, though sorrows round you stand
And age above you waves his silver wand,
One consolation with your life is won—
That consolation lies in "MARTHA WASHINGTON".

This Hair Restorer is sold wholesale and retail by R. C. CLARK & CO., No. 14, West Spring street ap16

FINANCIAL AND COMMERCIAL

FINANCIAL.

NEW YORK, April 27.

The Commercial's money article says the stock market shows a general recovery from the shock produced by the European news of yesterday. The feeling on the street is generally one of comparative independence on European movements. Illinois Central rose to 124 and closed at 123¾. Erie was firm, opening at 73 and closing at 74¼; Michigan Southern is weak for the movement and ⅜c lower; in the miscellaneous list there was less activity and prices were regular. In governments the chief interest centers in old 5-20's; this morning the coupon party were found to have borrowed all the bonds, and the sellers were consequently shut off from hedging over by borrowing. Certificates and compound notes are at par.

Money is at less demand than yesterday from the street. The rate on call is 6@7 per cent. with an abundance of transactions at the higher figure. Gold is again higher and active. The shorts continue to bridge over by borrowing gold. The intelligence received by the Scotia and Africa has considerably strengthened the market. The price opened at 129 and at 1.30 p. m. was 129¾. Foreign exchange shows a decidedly firm tendency this morning, the rates were unsettled, and the transactions up till noon were not large. Francs are current at 5.20@5.22½ for long date, and 5.15@5.17½ for sight. All accounts from London agree that amid the prevailing panic in British and foreign securities the American stocks maintain a greater firmness than any other. A dispatch to L. P. Morton & Co., dated the 16th, says: "All American securities have recovered ¾ per cent from the opening prices

PETROLEUM MARKETS.

TITUSVILLE, April 27.

There is no change to report in the petroleum markets, although oil at the wells may be a shade firmer—This may be caused by the reopening of navigation on the Creek, thus creating a demand from Pittsburgh buyers. The large amount of oil on hand at that place however, will of necessity limit the purchases of the operators there. The spasmodic flow of oil to Pittsburgh causes a fluctuation in prices which depend altogether upon the rise and fall of the Creek.

There is comparatively little oil coming this way, which, as a natural consequence, has the tendency to flood the southern outlet.

The eastern markets are still very dull, and the shippers here cannot see any margin in meeting oil in that direction. There are a few orders from Philadelphia but nothing of any consequence. As will be seen below there is a slight advance in the New York market for present delivery.

The price of oil at the wells will probably not rule much lower even if the tax is removed, as no matter what the condition of the markets may be, the producers would rather store them oil here, than sell it at a price which would pay a margin for shipping at present quotations.

The great preparations which have been made for carrying oil in tank cars bids fair to create a revolution in the method of carrying oil, and so soon as oil begins to move this way, there will be very few packages used. It is to be presumed that tanks from which the oil can be drawn will be provided at the other end of the route. Packages are so much cheaper in the eastern markets than here, that this will be a great saving of expense both in transportation, in handling, and in the price of barrels. The following is our weekly report of the New York market:

NEW YORK April 25.

Referring you to the annexed report of our petroleum market for the week ending this day, I would remark: On account of the light supply, and several vessels loading, sales on the spot are now making at an advance of 1@1½c on the last quotations there was little or no change for present delivery. Naptha is hard of sale and ranges from 13@13c.

Refined, in bond, for present delivery	38@41
Refined, free, for present delivery	50@60c
Crude " "	21½
Receipts for the week at New York	10,726 bbls.

[Special to the Morning Herald.]

PITTSBURGH OIL MARKET.

PITTSBURGH, April 27.

The market this forenoon was firm with an upward tendency, and a very considerable quantity of crude could have been disposed of this morning at 13@15c but holders were taking an advance up till noon to-day; however, two sales were effected of 335 barrels at 13c, and 345 barrels at 13c barrels returned.

Telegrams from Oil City quote crude at $4 25@4 50 per barrel for refined.

The favorable advices from Europe have infused more firmness in the market for bonded, and the commodity is held at an advance.

Free oil is dull and prices unchanged.

The receipts by the Allegheny River are increasing and a large quantity of oil may be expected in a few days. Fisher Bros. will receive 10,000 barrels to-day; Mawhinney & Bros. received 750 barrels this a. m., and Vandergriff & Co 1,500 barrels.

Titusville Morning Herald.

CITY ORDINANCES.

AN ORDINANCE for the improvement of certain portions of Franklin, Spring and Diamond streets.

It is ordained by the Common Council of the city of Titusville:

Section 1. That the owners of real estate on the east and west sides of Franklin street, from the bridge over Oil Creek, north to Meeting House Run, be and are hereby required to construct a good substantial sidewalk in front of his, her or their premises, seven feet six inches wide and to be constructed of stone, brick or two inch plank, with a curb at the outer edge of said walk, said curb to be of stone six inches wide, sixteen inches deep and the stones forming said curb to be of not less than two feet in length. Also to construct a gutter suitable for draining said street—said gutter to commence at the outer edge of the curbstone of the sidewalk and to be six feet wide and paved with cobble stone.

Section 2. That the owners of real estate on the north and south sides of Spring streets from Monroe east to Martin street, and on the north and south sides of Diamond street, from the intersection of said street with Spring street, east to the intersection of Diamond and Pine street, be and are hereby required to erect a good, substantial sidewalk in front of his, her or their premises, to be constructed of stone, brick or two inch plank and to be seven feet six inches wide, with a stone curb at the outer edge of said sidewalk of six inches wide, sixteen inches deep and the stones composing said curb to be not less than two feet long. Also to construct a gutter suitable for draining said streets—said gutter to commence at the outer edge of the curb stone and to be five feet wide and paved with cobble stone.

Sections 3. That the sidewalks, curbs and gutters referred to in the preceding sections shall be graded, laid and paved according to the direction of the City Surveyor and be approved of by the Street Commissioner and shall be finished within thirty days after notice by the Street Commissioner to the owners or occupants of said real estate to perform said work, and if not finished as aforesaid said walks, curbs and gutters shall be erected by the city authorities and the expense thereof with twenty per centum advance therefrom shall be collected from the persons required by this ordinance to construct said walks, curbs and gutters.

Section 4. That if the owners of real estate referred to in the preceding sections should prefer to have the city construct said walks, curbs and gutters, he, she or they are hereby authorized to contract with the Committee on Public Improvements for the erection and construction of the same, and if the work so contracted for to be done is not paid for by said party or parties in accordance with the contract made with said Committee the contract price of said work with twenty per centum advance thereon shall be collected from the owner of said real estate, either by an action of assumpsit or by filing a lien for same against the real estate benefitted by said work.

Section 5. The Committee on Public Improvements are hereby authorized to do the work described in the preceding sections, (in default of its being done as hereinbefore provided,) and also to make a further improvement of such portions of Franklin, Spring and Diamond streets as they may deem expedient by laying road-beds pounded sandstone, cobble stone, or coarse gravel, from the gutter on one side of each of said streets, to the gutter on the opposite side of same; the work to be done according to the instructions of the City Surveyor, and to be approved by the Street Commissioner.

Enacted April 16, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the foregoing ordinance was passed unanimously by the City Council of Titusville, April 10, 1866. (ap16) F. B. GUTHRIE, Clerk.

ORDINANCE to prevent the obstruction of cross walks or other walks.

Sec. 1. Be it ordained by the City Council of the city of Titusville, that no person driving or having charge of a cab, cart, coach, dray or wagon, or other vehicle, or riding or leading a horse, or other animal, shall step or stand on any cross walk so as to obstruct the passage of the same.

Sec. 2. That there shall be no gathering of persons upon the side or cross walks, upon business or for other purposes, so as to obstruct the free passage of the same.

Sec. 3. Any person violating the provisions of this ordinance shall, on conviction thereof, be fined in any sum not exceeding twenty dollars.

Passed April 19th, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the above ordinance was unanimously passed by the Common Council of the city of Titusville, April 19, 1866. ap23 F. B. GUTHRIE, Clerk.

ORDINANCE regulating the licensing of certain kinds of business in the city of Titusville.

Section 1. Be it ordained by the Common Council of the city of Titusville, and it is hereby enacted by the authority of the same, that all persons owning or keeping any billiard or bagatelle tables for hire in the city of Titusville, shall pay the sum of five dollars per year as license for each table so kept as aforesaid.

Sec. 2. That every person owning or keeping an eating saloon, or place where vinous, spirituous, malt or fermented liquors are sold in quantities of less measure than one quart, in the city of Titusville, shall pay as a license to said city the sum of twenty-five dollars per year.

Section 3. That the owner of every livery or sale stable in said city, shall pay to the city of Titusville a license for said stable the sum of ten dollars per year, subject to the regulations of the Sanitary Committee.

Sec. 4. That the owners of all drays used for hire shall pay as a license therefor the sum of eight dollars per year for each one horse dray and twelve dollars per year for each two horse dray used as aforesaid.

Sec. 5. That the owners of all baggage wagons, omnibuses, coaches, carriages, and cabs used for hire within the limits of said city, shall pay as a license therefore the sum of eight dollars per year for each vehicle drawn by one horse and fifteen dollars per year for each vehicle drawn by two or more horses.

Sec. 6. That every person engaged in selling goods as an auctioneer, or as "Cheap John," shall pay the sum of one hundred dollars per year as a license. Every person who receives one or more bids for goods, at public outcry shall be deemed an auctioneer under this ordinance.

Sec. 7. That the owner of every meat market shall pay five dollars per year as a license.

Sec. 8. That the owner of every fish market shall pay ten dollars per year as a license.

Sec. 9. That the owner or keeper of ever bowling alley shall pay as a license the sum of twenty dollars for each bed or alley.

Sec. 10. That all peddlers and hawkers shall pay the sum of ten dollars per year each; and peddlers and hawkers with hand baskets one dollar per year each.

Sec. 11. That every person exhibiting statues or paintings for pay, shall pay two dollars per day.

Sec. 12. That all concerts, shows and exhibitions, shall pay three dollars per day or night.

Sec. 13. That all minstrel troupes shall pay five dollars per day or night.

Sec. 14. That every circus or menagerie shall pay twenty-five dollars per day, and each side show in connection therewith shall pay ten dollars per day.

Sec. 15. That every theatre exhibiting within the city limits shall pay three dollars per night or fifteen dollars per week, and each week after the first the sum of ten dollars per week.

Sec. 16. That every person owning or keeping a dog or bitch shall pay a license of one dollar for each dog and two dollars for each bitch.

Sec. 17. That all licenses granted as aforesaid shall be signed by the Mayor and attested by the Clerk of the Council.

Sec. 18. That every person obtaining a license as aforesaid shall pay the Mayor a fee of one dollar in addition to the price of license wherever the amount of the license is [illegible]

Sec. 19. That in cases where license is not obtained by every person required by this ordinance to obtain the same within ten days from the publication of this ordinance every such person on conviction before the Mayor or any justice of the Peace in said city of any violation of this ordinance shall pay a fine of one-half the amount required to be paid by such person for a license as aforesaid with costs of suit.

Sec. 20. The Mayor shall keep a minute or record of all licenses granted, and for what purposes and make return of the same to the Council at least once a month.

Sec. 21. This ordinance shall take effect ten days after publication of same.

Passed April 19, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the foregoing ordinance was unanimously passed by the Common Council of the city of Titusville April 19, 1866. ap23d F. B. GUTHRIE, Clerk.

AN ORDINANCE to prevent the sale of indecent publications.

Be it enacted by the Common Council of the city of Titusville, that if any person shall after ten days from the passage of this ordinance exhibit, sell or offer for sale any indecent, lewd and obscene print, book, picture or lascivious publication of any character whatever, he or she, upon conviction thereof, before the Mayor or any Justice of the Peace in and for the said city, for each and every offence be fined the sum of twenty dollars.

Passed April 16, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the above ordinance was unanimously passed by the Common Council of the city of Titusville, April 16, 1866. ap17 F. B. GUTHRIE, Clerk.

ORDINANCE regulating the sale of Illuminating oil.

Sec. 1. Be it ordained by the Common Council of the city of Titusville, that from and after ten days from the publication of this Ordinance, no person shall be allowed to sell within the city limits any illuminating oil or fluid, to be used in said city, standing under the fire test of one hundred and ten degrees, under a penalty of twenty-five dollars for each and every offence, to be recovered on peddlers of like account are recoverable.

Sec. 2. That the venders of all such oils or fluids shall be required to have such oils or fluids inspected by the Sealers of Weights and Measures, who shall be entitled to receive from the venders of said oils or fluids the sum of one-half cent per gallon as a compensation for inspecting the same.

Passed April 16, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the foregoing ordinance was unanimously passed by the Common Council of the City of Titusville, April 16, 1866. ap20t F. B. GUTHRIE, Clerk.

AN ORDINANCE to prevent the existence of houses of ill fame.

Section 1. Be it ordained by the City Council of the city of Titusville, that no occupant or owner of any premises within said city shall keep, or suffer to be kept on said premises a house of ill fame.

Section 2. That no person shall reside in a house of ill fame, or visit such house for the purpose of prostitution, and if any person shall be found visiting any house of ill fame it shall be prima facie evidence of having visited it for that purpose, but such person may exculpate himself by reasonable proof.

Section 3. Any person violating any provisions of this ordinance, shall, on conviction thereof, be fined in any sum not exceeding one hundred dollars.

Passed April 16, 1866.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the above ordinance was unanimously passed by the Common Council of the city of Titusville, April 16, 1866. ap17 F. B. GUTHRIE, Clerk.

AN ORDINANCE to prevent drunkenness and disorder in the City of Titusville.

Be it enacted by the Common Council of the city of Titusville, that if any person shall be found intoxicated or disorderly in any street, highway or public house, or public place within the limits of the city of Titusville, he or she upon conviction thereof before the Mayor of said city, any Alderman or Justice of the Peace in and for said county, shall be fined in any sum not exceeding twenty dollars.

JOEL N. ANGIER, Mayor.

Attest: F. B. GUTHRIE, Clerk.

I certify that the above ordinance was unanimously passed by the Common Council of the city of Titusville, April 16, 1866. ap17 F. B. GUTHRIE, Clerk.

TRANSPORTATION.

EMPIRE LINE.

THE EMPIRE TRANSPORTATION COMPANY

Now offers to the business community a RELIABLE FAST FREIGHT LINE between the EAST AND THE WEST, and the

GREAT OIL REGION OF PENNSYLVANIA.

It owns and controls all the cars of its line, which are new, and built expressly for its trade, and furnished with BROAD TREAD WHEELS, which enable it to run through irrespective of change of gauge, thus avoiding the injurious delays prevalent at transshipping points.

The Line is managed by men of long experience in the business, and no effort will be spared on their part to render satisfaction to its patrons.

Parties ordering goods from the East will please direct Shippers to Mark Packages, "EMPIRE LINE," and refer them to the Agents of the Company for shipping directions, &c.

☞ Particular attention given to forwarding OIL to New York, Philadelphia and Baltimore.

For rates of freight, shipping directions, &c., apply to our Agents in the different Eastern and Western cities.

J. E. McLAUGHLIN, Agent, Titusville, Pa.
ROBT. W. SMITH, Eastern Superintendent, Williamsport, Pa.
JNO. J. HOUSTON, General Freight Agent, Philadelphia. mh8

GEO. W. ARCHER, J. W. SUMERS,
J. M. NORRIS.

ENGINES.

Briggs & Severance.

GENERAL AGENTS FOR THE

WOOD & MANN

ENGINES.

THESE ENGINES ARE UNSURPASSED FOR BEAUTY OF DESIGN, NEATNESS OF WORKMANSHIP, ECONOMY IN FUEL, DURABILITY, AND CHEAPNESS IN PRICE.

We call attention the following table of dimensions which, in comparison with engines of other manufacture show our Eight Horse power to be equal, in size and capacity, to their so called Ten Horse Power. Our other sizes are in the same proportion.

WE GUARANTEE EACH ENGINE TO BE AS REPRESENTED.

Table of Dimensions

OF PORTABLE STEAM ENGINES & BOILERS MADE AT TITUSVILLE

Horse Power	Diameter. Inches.	Stroke Inches.	Water.	Fire Box. Length.	Fire Box. Width.	Fire Box. Height.	Tubes or Flues. Number.	Tubes or Flues. Diameter Inches.	Tubes or Flues. Length Inches.	Fire Surface Square Feet.	Fly Wheel or Driving Pulley. Diameter Inches.	Fly Wheel or Driving Pulley. Width of Face.	Speed per Minute.	Estimated Weight of Engine and Boiler Complete.

We have lately added a new pump, the valves of which, and the seats, are entirely brass. The valves are surrounded by brass bars which hold them in their places. The face of the valve is perfectly flat. To remove either valve it is only necessary to loosen but

One Screw.

WE CHALLENGE

any manufacturer to produce a more perfect and reliable pump.

TO OIL MEN.

CARVER'S
DOUBLE ACTING
OIL PUMP.
This pump consists of two barrels, one within the other, and each having its separate valves and acting independent of the other. The action is
DOUBLE,
and as much oil is raised at the
DOWNWARD
as at the
UPWARD STROKE.
THE DOUBLE SET OF VALVES
allows the FREE ESCAPE of gas through one or the other of the barrels, without affecting the pumping, and thus enables the pump to work without obstruction in wells where the common pump cannot be worked at all.
AN IMPROVED PISTON
of double the strength of the old one has been invented which will be supplied FREE to all parties using the old sliding valve in these pumps. These pumps have now been used on over one hundred wells. For sale by
BURTIS, HART & BURROWS,
Over Petroleum Bank,
and McMULLIN & BRYAN,
mh24 Franklin street, Titusville, Pa.
